February 21, 2014

An act to add *and repeal* Division 20.6 (commencing with Section 30961) ~~to~~ of the Public Resources Code, relating to sea level rise.

LEGISLATIVE COUNSEL'S DIGEST

AB 2516, as amended, Gordon. Sea level rise planning: database.

Existing law establishes the Natural Resources Agency consisting of various entities, departments, and boards, including the Department of Water Resources, the California Coastal Commission, the State Energy Resources Conservation and Development Commission, the State Lands Commission, the San Francisco Bay Conservation and Development Commission, and the State Coastal Conservancy.

This bill would require, on or before January 1, 2016, the Natural Resources Agency, in collaboration with the Ocean Protection Council, to create, update biannually, and post on an Internet Web site a Planning for Sea Level Rise Database describing steps being taken throughout the state to prepare for, and adapt to, sea level rise. The bill would require various public agencies and private entities to provide to the

agency, by July 1, 2015, and, beginning January 1, 2016, on a biannual basis thereafter, sea level rise planning information, as defined, that is under the control or jurisdiction of the public agencies or private entities. The bill would require the agency to determine which information is necessary for inclusion in the database and to organize the database by geographic region and provide an entry for each city, county, and city and county within the coastal zone and San Francisco Bay area. *The bill would repeal these provisions on January 1, 2018.*

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
